

JEANINE K. DEBERRY

Technical Support & Customer Success Specialist | CRM Systems & Digital Solutions

Greenville, SC | 470-620-8103 | jeanine@jeaninedeberry.dev

Portfolio: jeaninedeberry.dev | GitHub: github.com/jkdeberry | LinkedIn: linkedin.com/in/jeaninedeberry

Professional Summary

Versatile Technical Support & Customer Success Specialist with 25+ years supporting users in high-volume digital environments across healthcare, enterprise operations, and customer experience functions. Skilled in resolving technical issues, supporting CRM/ERP and SaaS applications (Salesforce, SAP, NetSuite), managing sensitive data, and improving workflow efficiency through documentation and process optimization.

Strong communicator with modern front-end development skills (React, JavaScript, APIs, responsive UI) gained through SheCodes Full-Stack program, enabling collaboration with product, engineering, and application support teams. Known for empathy, clarity, accuracy, and transforming complex challenges into solutions. Fully remote-ready with professional home office setup.

Core Skills

Technical & Application Support • Customer Success • SaaS & Cloud-Based Tools • Remote Support • CRM/ERP Systems (Salesforce, SAP, NetSuite) • Troubleshooting & Issue Resolution • HIPAA-Compliant Support • Documentation & Training • Workflow Optimization • Microsoft 365 • Google Workspace • Slack • React • JavaScript (ES6+) • HTML5 • CSS3 • API Integration • Responsive Web Design • Git & GitHub • UX/UI Awareness

Selected Projects

AI Dementia Activity Generator | JavaScript + OpenAI API

Developed AI-powered cognitive activity generator tailored for dementia care using OpenAI API and accessible design to support caregivers and therapeutic environments.

Weather App | React + Live API

Created a responsive weather dashboard with live API data, animated conditions, unit conversion, and modern UI.

Dictionary App | React + Pexels API

Built search-based dictionary experience including phonetic audio, definition display, and related image integration.

Professional Experience

Call Specialist — ASD (Remote) | Aug 2023 – Jan 2024

- Delivered urgent high-accuracy case documentation (99% accuracy) using CRM tools in a sensitive, confidential service workflow.
